Making a gift to the Interior Restoration Fund creates a circle of citizens who believe in preserving the treasure of the railroad heritage of Bradford.

Your contributions will preserve a landmark building to its former grandeur with the original plaster sculpted ceiling and an open mezzanine level accessed by a decorative stairway with a chair lift.

The renovation has four major components to expand the exhibit space to accommodate a children's hands-on educational center, handicap restrooms, office and meeting space.

The interior surfaces and details will reflect the original period of the building and the railroad's operation in Bradford.

If you would like to make a contribution to this fund, please complete and return the form with your gift.
